# 2010-11 APPLICATION FOR ENROLLMENT

---

**Application Deadline: Friday, March 12, 2010**

**Lottery Date (if necessary): Friday, March 19, 2010**

### Instructions and Background Information

Becoming a student at MIT is a two (2) step process:

1. Apply for Enrollment

#### ***At the beginning of the year***

New students must first apply to the school during the application period. After the application deadline, students are admitted to the school. If more applications are received than space available, a computer-generated lottery will be held. Applications submitted after the deadline will not be placed in the lottery but will be added to the waiting list on a first-come, first-serve basis. Students on the waiting list will be contacted for enrollment, as space becomes available.

#### ***In the middle of the year***

New students may also apply to the school during the year. If space is available, a student may be admitted mid-year.

2. Complete the Enrollment Packet and Attend Orientation

After Admission, the enrollment process begins. Complete the enrollment packet and submit it to the Main Office (H1.5). Student/Families who are admitted must complete the enrollment packet. The enrollment packet contains important information and documents that must be completed in order to enroll at school. Once all items from the enrollment packet have been received and orientation has been attended, the enrollment process is complete.

### Notes

Immediate siblings of current MIT students are admitted automatically.

After Admission, students will be contacted to attend a mandatory orientation with their Parent/Guardians. Those who fail to attend the orientation will not be enrolled and placed at the bottom of the waiting list. Students who fail to attend their first three (3) days of school without notice to the school will be disenrolled.
