STAFF ANNOUNCEMENTS

As a reminder, please make sure that students who leave your classroom should either...

1. Be given a **campus pass** that indicates the date/time they are out and when they return (e.g. put a 10min limit on their time out of the class), or...
2. They should put their name, date, and time on a **signout sheet (and sign back in when they return)**. They should also be given a discrete time limit.

We want to restrict the time students are out and about by creating a "buffer zone" of 20 minutes at the beginning of each period (yes, including 5th period and ED-RTI). In addition to restricting the time, a side benefit will be that lessons can get started right away with fewer disruptions. **We will make every effort to ensure that the policy works both ways (no calls to your classroom for the first 20min).** Since most people are able to (and should) read this email by the end of 1st period, **I'd like you to announce this policy at the beginning of the 3rd period.**

Just to clarify the new buffer zone policy, the intention is to restrict students from being out of the classroom more than necessary. **If you have to ask a student to leave due to a behavioral issue, you may do so at any time. Also, Student Services may need to contact you during the first 20min as part of an investigation.**

It is best to never have students carry confidential documents. Should you need something carried by a student, make certain it is enclosed in an envelope. This includes, but is not limited to, attendance reports, report cards and student/staff contact information.

Next week, February 5th & 6th, our 10th grade students will take their **CAHSEE EXAMS**. All 10th graders are to please remind their parents not to schedule any appointments for them on testing days. Be sure to be rested, nourished and ready to do your best!

For March 2013, the National Women's History Project selected the theme, "**Women Inspiring Innovation Through Imagination: Celebrating Women in Science, Technology, Engineering, and Mathematics.**" It is with great pleasure that we announce the Honorees for NATIONAL WOMEN'S HISTORY MONTH 2013. The 18 women chosen are all extraordinary visionaries and role models in the **STEM** fields, where women are still noticeably underrepresented.

The 2013 Honorees represent a remarkable range of accomplishments and a wide diversity of specialties including medicine, robotics, computer programming, atmospheric chemistry, architecture and primatology. These women's lives and work span the centuries of American history and come from different cultural and ethnic backgrounds. We are proud to honor them and all women seeking to advance these important fields.

Be sure to check out the list of honorees, their field, and accomplishments on our MIT Academy Facebook page, as well as in the main office!
