

Interested In Learning How To Code?

Girls Who Code has made a tremendous impact on the pipeline of girls and women entering computer science. We've reached 185,000 girls across the country, 30,000 of whom are now college-aged.

Want to help secure a ticket to a successful career?

Computing jobs are among the fastest-growing in the U.S. economy. These jobs pay more than double the average U.S. salary. And in the coming years, they will be key drivers of national economic growth and mobility.

Have some time after school?

Join the Girls Who Code (ASP) Club: Wednesdays from 4:00 to 5:30 in **Room Z**

"Before Girls Who Code, I never saw myself as a coder or an engineer. Girls Who Code gave me not just valuable coding skills but a valuable opportunity: to see myself in a whole new way. Now, I see myself as someone who can take on a big industry regardless of the gender gap. I am a more able, confident, and ambitious girl with big dreams and I want to share them with everyone around the world" ~ Leslie Landis New York, New York
